RESTORED IN
HOPE

With the entire Roman Catholic Church, the Pontifical North American College is preparing for the Jubilee Year of 2025. Following the Great Jubilee of 2000, this will be a time of “celebration as a special gift of grace, characterized by the forgiveness of sins and in particular by the indulgence, which is a full expression of the mercy of God,” according to Pope Francis.

In addition to our spiritual preparation for the Jubilee Year, the College is also using the milestone in another way: to launch a series of critical renovation projects at our two campuses as we prepare for our next 25 years of service to the Church.

This new renovation initiative comes at an exciting time in the Church and in the history of the College. While we have kept up with the most critical maintenance issues through the years, we now would like your help in addressing several current needs in combination with the Jubilee Year milestone.

A summary of our projects is presented here. Many of them will result in significant cost savings in the long term. Other beautification and restoration projects are equally important. Funding will come from a variety of sources, including our generous benefactors. I thank you in advance for prayerfully considering how you could partner with us by investing in one or more of these undertakings.
